General Funny Jokes

7. A newly-appointed principal was a bit apprehensive the morning of his first day at his new school. In addition to the usual first-time-on-the-job jitters he had recently injured his back and had to wear a plaster cast around the upper part of his body so he wasn't quite feeling himself. But it fit under his shirt and was not noticeable at all.

Adding to all this on the first day of the term, still with the cast under his shirt, he found himself holding a session with a collection of many of the toughest disciplinary students in school. Putting on his most-confident demeanor he walked into rowdy classroom, opened the window as wide as possible, and then busied himself with some paperwork at the desk as he waited for the period to start. When a strong breeze made his tie flap, he took the desk stapler and stapled the tie straight into his chest as the students watched in amazement. Discipline was not a problem from that day forth!

"It's like a jungle. One fight after another. They threaten me as least 100 times a day!" cried the son.
